

Direct Suppliers Quality Requirements

In addition to our standard terms and conditions; the following requirements are for products and/or services that will be used in our Aerospace, Space & Defence Customer Products:

- The implementation of a quality management system;
- Use customer-designated or approved external providers, including process sources (e.g., special processes);
- Notify the organization of nonconforming processes, products, or services and obtain approval for their disposition;
- Prevent the use of counterfeit parts, by one or more of the following (as applicable to the product/service being supplied):
 - Training of appropriate persons in the awareness and prevention of counterfeit parts;
 - Controls for acquiring externally provided product from original manufacturers, authorized distributors, or other approved sources;
 - Requirements for assuring traceability of parts and components to their original authorized manufacturers;
 - Verification and test methodologies to detect counterfeit parts;
 - Monitoring of counterfeit parts reporting from external sources;
 - Quarantine and reporting of suspect or detected counterfeit parts
- Notify ourselves of changes to processes, products, or services, including changes of your external providers or location of manufacture, and obtain the organization's approval;
- Documented information shall be held indefinitely unless otherwise stated within the Purchase Order, after such time records may be disposed of in accordance with your own planned arrangements
- Ensure that your personnel are aware of:
 - Their contribution to product or service conformity;
 - Their contribution to product safety;
 - The importance of ethical behaviour.
- Apply appropriate controls to your direct and sub-tier external providers, to ensure that requirements of the Purchase Order are met.
- The right of access by the organization, their customer, and regulatory authorities to the applicable areas of facilities and to applicable documented information, at any level of the supply chain.
